

YEAR 10 OPTION CHOICES 2015-2017

Llíber, 14th September 2015

Dear Parents

The pupils are now starting the two year programme for their GCSE's. The GCSE syllabus for each subject is very demanding and it is vital that all pupils supplement the work that is done in class with additional work at home, in order to maximize the potential to achieve good grades.

There are a lot of topics that need to be covered during the course and it is essential that if, for any reason, a pupil misses a lesson they should go and see the teacher to get the work that they have missed.

There are very few subjects that are totally new to the pupils e.g. Media Studies, and consequently we anticipate that it will not take long for the pupils to establish a routine. Therefore a pupil will only be allowed to change their option choices up until **Friday 2nd October**, and this must be done in writing with a letter from the parents.

It may not be possible to satisfy all requests for changes due to the high demand for certain subjects.

We will continue to support the pupils throughout the next two important years of their academic life, and with your help we hope to give everyone the best opportunity to deliver their full potential in the choices they have made.

Can you please sign and return the section below to confirm that you have received this letter.

Please contact me at the school if you have any questions.

Yours sincerely

Al Castle
Director of Studies
