

10. Mobile phones and valuables

Can my child bring a mobile phone or other electronic device to school?

Yes. However, all devices must be switched off (and headphones removed) as soon as your child leaves the car or school bus. Phones and electronic devices must be handed in to the tutor at the beginning of the school day and will be returned during afternoon registration (but must not be used until the pupils is in the school bus or car). Any device which is found on a pupil during the school day will be confiscated and kept until the parents come to school to collect it.

Sixth Formers are allowed to keep their phones, but should not be using them while walking in the school corridors.

How can I contact my child, and how can my child contact me, during the school day?

Please phone the school office on Tel: 96 573 1960 and speak to the School Secretary, Mrs N Smolders, with any important message.

Your child may ask to use a phone in the School office if he/she needs to contact you during the day.

How can my child keep money and valuable items safe during the school day?

Money should be kept in a purse or wallet in a secure pocket.

Valuables should be handed in for safekeeping with the mobile phones, or locked in the pupil's school locker. Please do not bring valuables to school unless absolutely necessary.
